Sir:

Applicants hereby petition, pursuant to 37 CFR 1.313(b), for  
withdrawal of the above-identified application from issue for the  
consideration of a Request for Continued Examination in  
compliance with 37 CFR 1.114 (see 37 CFR 1.313(c)(2)). Enclosed  
herewith, by way of a credit card charge, is the Petition fee (37  
CFR 1.17(h)) of \$130.

Also enclosed herewith is the Request for Continued  
Examination (RCE), including the fee of \$375 at the small entity

rate, therefor. Applicants claim small entity status.

The issue fee transmittal, Submittal of Formal drawings, and Letter re correction of Title were all mailed to the Patent Office with a Certificate of Mailing on June 26, 2002. Enclosed is a copy of the postcard receipt (note that the Letter re correction of Title is not listed on the postcard receipt). The patent had not issued as of February 26, 2003. On that date a Status Request was mailed to the Patent Office. Enclosed is a copy of the postcard receipt therefor. Applicant still has not heard anything from the Patent Office regarding the status of this application. A check today of the Patent Office website showed that a patent has still not issued on the above-identified application.

The RCE includes an Amendment as well as Information Disclosure Statement which discloses some test results. The testing shows some results which require amendment of the claims to be in accord therewith, i.e., to delete a marker from a group of markers claimed for colon tumor. The Amendment and the Information Disclosure Statement more specifically address the above.

It is therefore respectfully petitioned and requested that the above-identified application be withdrawn from issue so that the RCE can be considered.

Respectfully submitted,

  
James C. Simmons
